Aqua-baby.dk
Svømning er leg og læring

You and your child are enrolled in baby swimming with Aqua-Baby.dk at Bolbro Svømmehal, Middelfartvej 180, 5200 Odense V.

The date and time are shown in the email you received when you signed up.

Here is some practical information:

- Wash your child thoroughly all over before putting on their swim nappy and swim pants.
- “Little accidents happen!” All children aged 3 and under must therefore wear both a swim nappy and Splash About swim pants or a similar product (see picture). The swim pants MUST have snug-fitting elastic around the tummy, back and thighs. We recommend Splash About, as our experience is that it provides the best protection.

  

  Splash About is available from Babygear.dk, among other retailers. Enter aquababy as the discount code to receive 8% off.

  Splash About can also be purchased from a vending machine at the swimming pool.
- Parents entering the water with their child must also shower beforehand. Follow the swimming pool's washing rules. Remove all make-up and rinse your hair before entering the pool. Tie long hair back with a hair elastic, or wear a swimming cap.
- Remember to bring a large, dry towel for after swimming. The air may feel cold to your child.
- Only one parent may be in the water with the child, unless otherwise agreed with the instructor. Family members are very welcome to watch from the poolside.
- There is usually more space in the men's changing room than in the women's. If both mum and dad are attending, it may therefore be easier for your child to change with dad.
- You may take photos during your child's lesson, but please ask an instructor first so that everyone is comfortable with this.
- Please be aware that floors around the pool and in the shower areas can be slippery. We therefore recommend wearing pool sandals or similar footwear for better grip.
- Aqua-baby.dk accepts no responsibility for clothing, valuables, cash or other belongings left in rooms, lockers or safe-deposit boxes. You can secure your changing-room locker with a padlock. Please bring your own padlock.

- The swimming pool's rules and guidelines must always be followed.
- Parking is free at the swimming pool.
- Prams may be brought inside and left on the lower level, but not in the changing rooms. Use the lift to reach the lower level. A baby car seat can be a good alternative to a pram.
- It can sometimes be difficult to find a parking space at the swimming pool. You may wish to park behind the pool on Dybdevej or Valhalsvej, accessed via Roesskovsvej.
- You can find more information on our questions and answers page.
- The swimming pool's rules and guidelines must always be followed.

I look forward to meeting you at the swimming pool.
Kind regards • Rebecca Fry Lauritsen • Aqua-Baby.dk
